The Challenge

Until now, prospect researchers have only had searchable access to a small percentage of information about Canadian foundations and their granting. Now Metasoft brings you FoundationSearch, a revolutionary new research resource dedicated to providing your organization with every funding opportunity available.

The Solution: FoundationSearch

FoundationSearch is the first fully searchable, online database of Canadian foundations for the serious prospect researcher, containing the tax filings of over 9,700 Canadian foundations. It provides the specific information you need to approach the most qualified prospects with compelling reasons why your project fits their vision. Using FoundationSearch will help you meet your funding goals and fulfill your project objectives!

Benefits of FoundationSearch

FoundationSearch is an efficient and easy to use solution designed to help you find new and leverage existing opportunities for fundraising. Only FoundationSearch is:

- **Comprehensive** – No other resource provides the depth and range of funder information available in FoundationSearch.
- **Efficient** – Keyword searching allows users to quickly and easily locate grants by type, value, year, recipient, donor, and more.
- **Innovative** – FoundationSearch provides market leading features such as global funder searches and an integrated prospect management system (beta).
- **Responsive** – Ongoing guidance from Metasoft's Client Advisory Board, whose members include some of the industry's top thought leaders, and invaluable feedback from our clients helps our development team continually improve our products to best meet your fundraising research needs.

With FoundationSearch, you can find the funders most likely to fund your projects, so that you can successfully fulfill your organization's mission.

Key Features

Comprehensive Data

FoundationSearch includes the most up-to-date and relevant information available, enabling you to make better, more informed decisions. Information includes:

- **Grants** – Review specific granting activity trends and potential future opportunities in detailed charts that include granting year, giving and recipient province, granting category, grant size, and more.
- **Foundations** – View a wide range of foundation related data, which can illuminate giving trends related to specific sectors, or can reveal organizations as possible new or additional sources of funding.

Global Search Capabilities

FoundationSearch Canada includes additional global search capabilities, accessing millions of records from over 120,000 funders in the US, Canada, the UK, and Australia, making FoundationSearch the most comprehensive search and funding research tool available online today.

Free Customer Support

FoundationSearch delivers step-by-step tutorials and help on how to search, and our professional and responsive support team is always ready to assist, either by email or phone. And all of this support is included in your membership—there are no additional support fees to pay.
